

Video from the Tuesday, Feb 22nd edition of the Tuesday/Thursday-morning ride

Finally, viewable video from the Tuesday/Thursday-morning ride. Unedited and a bit long, with a few dull spots, but captures the west side of Old LaHonda quite nicely, especially the run through the forest at the top, which is a difficult spot to get pictures of.

It took a long time to figure out how to keep the camera from rattling around and giving an excessively-jumpy picture. What remains is audio; the placement of the microphone on the Contour HD1080 isn't the greatest, and there's a fair amount of rattling coming from my levers. Working on it. But for now, I'm excited that I will finally be able to put together some useful video after all these years!

Look for an edited, annotated version of this video in a few days. --Mike--
