Milk bones for dogs from Jack 🐾

Our Director of Marketing

[This goes back to April, 2013, but still a good read --Mike--] Is our marketing going to the dogs? Can't tell you how many of these bikes we've sold the last couple days during our sale, but it's a lot. One of our neighbors has been tempted, so our dog, Jack, had the idea that the way to get them to "bite" would be through their own dogs. What you see above was dropped on their doorstep tonight. --Mike--
