

Skyline between Bear Creek and Sky Londa is a mess of water & mud

?From Thursday's solo ride, my first as a 67 year old. Cars a bit of a mess near the top of Old LaHonda, which is going to be the new norm until 84 is back in business. Unfortunately, "currently-good-weather" isn't going to mean much for a while, as water and mud sloshes across the road anywhere the road is cut into a hillside.
